Expert Lecture by Professor Mandeep Singh , Organized by Department of Electrical Engineering (26th Oct, 2016)

Electrical Engineering Department of Giani Zail Singh Campus College of Engineering & Technology, Bathinda campus (a constitute college of Maharaja Ranjit Singh Punjab Technical University, Bathinda) organized an Expert Lecture on Energy Conservation in Electrical Appliances on October 26th, 2016, wherein renowned Professor Mandeep Singh, from Department of Electrical & Instrumentation Engineering, Thapar University, Patiala has delivered the lecture to the students of 5th & 7th semester of Electrical Engineering Department.

Professor Mandeep Singh is certified Energy Auditor from Bureau of Energy Efficiency. Professor Singh has more than twenty years of experience in the field of Energy Conservation and related fields. He conducted specifically-designed counseling sessions for various graduate and postgraduate students providing them valuable suggestions related to technical knowledge and career guidance. In his expert talk, he laid stress on need of energy conservation and wide scope of electrical engineering as a profession. Dr. Singh explains why the energy conservation is necessary for each component/equipment associated with the field.

He made aware the students about many practical concepts of power transfer, energy consumption and efficient energy management. He also explained the inter-relatedness of electric field with other industries. He makes students comfortable to understand the practical problems coming in the field of power transmission and distribution. Students were made aware about the latest developments in various energy conservation Schemes all around the world in the form of video and power point presentations.

Professor Mohan Paul Singh Ishar, Vice Chancellor of Maharaja Ranjit Singh Punjab Technical University, Bathinda lauded the efforts by the Department of Electrical Engineering for arranging such a knowledgeable session for the students.

Campus Director, Professor Gursharan Singh, GZS Campus College of Engineering & Technology, appreciate the efforts made by the Electrical Engineering Department and congratulated the Professor Amit Kumar Manocha ,Head of the Department Faculty, staff and students for their efforts in organizing the expert lecture, which proved to be of help for students as well as the faculty members. Such innovative expert lectures help students to hone their skills and survive in cut throat competition. At the end Professor Amit Kumar Manocha present a token of love to Dr. Mandeep Singh and delivered vote of thanks to Expert, Faculty, Staff and Students.
