A meeting of the Committee constituted vide Ref. No. DAA/MRSPTU/2022/3861, dated 08.07.2022 was held at 3:00 PM on July 12th, 2022 in the office of Campus Director. Following are the unanimous recommendations made by the Committee:

Extension in Submission Date of MTech Thesis (henceforth called Dissertation)

Extension in submission date of MTech Dissertation should be done in line with the Public Notice issued by the UGC vide No.: F.1-10/2021(CPP-II), dated 17th May, 2022 (copy attached). In fact the Office of Dean Academics should have already done it by taking due cognizance of the above Public Notice of the UGC.

Guidelines regarding Conduct, Progress, and Evaluation of MTech Dissertation

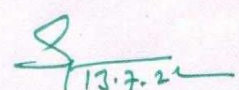

Conduct – MTech Dissertation work should be conducted by allowing the student to choose Dissertation Guide as per his/her own will with the consent of the proposed Guide. In no case Guide should be forcibly allotted to a student. However, to give wider representation to all departmental faculty members in guiding MTech Theses, a capping of 03 students at a time should be imposed on every faculty member of the department to act as Guide/Co-Guide.

Progress – There should be three stages to monitor progress of MTech Dissertation of the student:

- (i) Synopsis Submission and Presentation
- (ii) Mid Term Presentation
- (iii) Pre-Dissertation Submission Presentation

All these three stages shall be approved by the departmental faculty and Head of Department before allowing the student to submit his/her MTech Dissertation in the department.

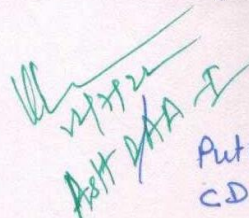

Evaluation – The external evaluation should be conducted by a panel of Examiners comprising of External Examiner, Internal Examiner (Guide), and Head of Department. The panel shall award a Letter Grade to the student in line with CBCS-2016 regulations. By doing this, the credits assigned to MTech Dissertation in the study scheme shall have meaningful reflectance in the overall CGPA of the student.

2. Many of the students have left and/or interested to leave the course after completing the lower degree (BCA). However, at present there is no exit option for this particular course.

Respected Mam,

I am Ayush Pratap (160280018) of your dept. I want to say that on period of Jan - July 2021 session. I had filled all my detention subjects upto 35 credits as per rule and cleared the attendance basis in all subjects. But in Jun - July 2021 examination time there was a rule announced that reappear students can fill only 5 subjects in examination form.

But in Aug - Dec 2019, I got year back due to my serious medical issues. That's why my 4th year results and my examination form always show as reappear.

That's why, I was able to fill only 5 subjects at that time period. This is the reason that I have some subjects remaining because my NT2 tenure is completed.

UGC Guidelines on Determination of a Uniform Span Period Within which a Student may be allowed to Qualify for a Degree.

The Commission has observed that universities across the country adopt varying span period within which a student may be allowed to complete a programme to be qualified for a degree. In order to evolve a uniform policy, the Commission had constituted an Expert Committee to consider the issue of determining a uniform span period. On the basis of the recommendations made by the Committee, the Commission has formulated following guidelines for compliance of the universities:

1. Normally, the student is expected to complete his programme within the minimum period as laid down under the relevant Regulation of the university which should be in conformity with the UGC Regulations on the award of First Degree and Masters Degree and also in line with the notification, issued from time to time, on Specification of Degrees under Section 22 of UGC Act, 1956.
2. A student who for whatever reasons is not able to complete the programme within the normal period or the minimum duration prescribed for the programme, may be allowed two years period beyond the normal period to clear the backlog to be qualified for the degree. The general formula, therefore should be as follows:
 - a) Time Span = $N+2$ years for the completion of programme.
where N stands for the normal or minimum duration prescribed for completion of the programme.
 - b) In exceptional circumstance a further extension of one more year may be granted. The exceptional circumstances be spelt out clearly by the relevant statutory body concerned of the university.
 - c) During the extended period the student shall be considered as a private candidate and also not be eligible for ranking.
3. Ordinarily, no student should be given time beyond the extended period of two years. However, in exceptional circumstances and on the basis of the merits of each case university may allow a student one more year for completion of the programme.
4. These guidelines are subject to the Rules and Regulations of the statutory bodies and universities governing the grant of degrees.

This is to inform you that I am the student of your branch of batch (2K17). I have a detention in Soft Skill I of 3rd sem. I tried to clear it in 5th sem but forget to fill exam form and only filled improvement form.

Kindly look into the issue seriously as it is my last chance to improve it. It is important to clear it as my company where I am working right now is asking for my degree else they will fire me off their company. As this job is necessary for me because I am the only one to look at my home as my mother is on the bed. And father is not having a proper job.

I asked for the attendance in the Management department but they are not having as it is too old. So couldn't get the attendance details. I will do what ever is required.

Kindly look into the issue I shall be highly obliged.

Thanking you

Your Obediently

Udit Sharma.

Note No. #9 **UGC Guidelines on Determination of a Uniform Span**
Period Within which a Student may be allowed to
Qualify for a Degree. Attachment:2980373_Guidelines-for-uniform-span.pdf

The Commission has observed that universities across the country adopt varying span period within which a student may be allowed to complete a programme to be qualified for a degree. In order to evolve a uniform policy, the Commission had constituted an Expert Committee to consider the issue of determining a uniform span period. On the basis of the recommendations made by the Committee, the Commission has formulated following guidelines for compliance of the universities:

1. Normally, the student is expected to complete his programme within the minimum period as laid down under the relevant Regulation of the university which should be in conformity with the UGC Regulations on the award of First Degree and Masters Degree and also in line with the notification, issued from time to time, on Specification of Degrees under Section 22 of UGC Act, 1956.
2. A student who for whatever reasons is not able to complete the programme within the normal period or the minimum duration prescribed for the programme, may be allowed two years period beyond the normal period to clear the backlog to be qualified for the degree. The general formula, therefore should be as follows:
 - a) Time Span = $N+2$ years for the completion of programme.
where N stands for the normal or minimum duration prescribed for completion of the programme.
 - b) In exceptional circumstance a further extension of one more year may be granted. The exceptional circumstances be spelt out clearly by the relevant statutory body concerned of the university.
 - c) During the extended period the student shall be considered as a private candidate and also not be eligible for ranking.
3. Ordinarily, no student should be given time beyond the extended period of two years. However, in exceptional circumstances and on the basis of the merits of each case university may allow a student one more year for completion of the programme.
4. These guidelines are subject to the Rules and Regulations of the statutory bodies and universities governing the grant of degrees.
